Profile

Experienced and results-driven Senior Frontend Developer with a solid 3-year track record in creating cutting-edge mobile and web applications using React Native and React JS. Proficient in translating intricate UI/UX designs into robust code, ensuring top-notch performance and scalability. Demonstrated ability to collaborate seamlessly with cross-functional teams to deliver exceptional user experiences.

Experience

SR. SOFTWARE ENGINEER | AGRIBAZAAR | FEBRUARY 2022 - PRESENT

- Successfully developed and delivered multiple pivotal modules for Agribazaar's application, leveraging React Native to enhance user experience and ensure seamless functionality.
- Collaborating closely with R&D and QA teams, actively contributing to refining and optimizing the modules, resulting in a polished and user-friendly experience for end-users.
- Taking charge of maintaining and enhancing existing features within the application, continuously identifying areas for improvement and implementing updates to elevate overall performance and usability.

SOFTWARE ENGINEER | EC INFOSOLUTIONS | DECEMBER 2020 – JANUARY 2022

- Successfully designed and developed 5 impactful React and React Native applications, with 3 of them currently live on both Play Store and App Store.
- Demonstrated versatile expertise by leading end-to-end development for several projects as the sole Frontend developer, while also collaborating effectively with teams on other ventures.
- Played an active role in client meetings with managers and founders, showcasing excellent communication and interpersonal skills.
- Key achievement: Spearheaded the development of 2 critical applications for Ekey, a US-based startup, catering to both customers and product owners.

Education

BACHELOR OF TECHNOLOGY | 2016-2020 | JODHPUR INSTITUTE OF ENGINEERING AND TECHNOLOGY, JODHPUR, RAJASTHAN

SENIOR SECONDARY | 2016 | B. D. R. K. A. SEN. SEC. SCHOOL

SECONDARY | 2014 | B. D. R. K. A. SEN. SEC. SCHOOL

Skills & Abilities

- Programming Languages: JavaScript (ES6+), HTML5, CSS3
- Frameworks/Libraries: React JS, React Native, Next JS, Node JS

- State Management: Redux Toolkit, Tanstack/React Query
- Backend Integration: RESTful APIs
- Version Control: Git
- Development Tools: VS Code, NPM, Code Push
- Testing: Jest
- Cross-Platform Development
- Responsive Design
- Agile/Scrum Methodology
- Problem-Solving and Debugging

Projects

SOUL 33

- Developed a React Native mobile application, Soul33, in collaboration with acclaimed international healer Gaia Chinniah. The app provides users with round-the-clock access to spiritual guidance, offering a unique opportunity to receive Gaia's healing support at any time.
- The app features a collection of guided meditations, updated weekly, curated by Gaia. It also fosters a sense of community through group chat, enabling like-minded seekers to connect and share insights.

AGRIBAZAAR (WEBSITE AND APPLICATION)

- Developed and delivered multiple pivotal modules like trading feature for traders, GAP module which provides detailed knowledge of various crops to farmers and many more for Agribazaar's application, leveraging React Native to enhance user experience and ensure seamless functionality.

AGRIBAZAAR - FIELD CONNECT

- Developed a comprehensive sales tracking and management feature that enables real-time tracking of user requirements.
- Implemented a dynamic dashboard to visualize sales data, helping users improve fulfillment rates by identifying trends and optimizing processes.
- Designed and implemented a robust customer relationship management module, allowing users to efficiently engage with customers.
- Engineered a performance analytics module, offering users an insightful view of their metrics and targets.
